

GROWTH AGENCY

COMPANY PROFILE & CASE STUDIES .

Marketing & Growth Strategy

WHO WE ARE .

Sonic Growth Agency is a full-service marketing agency specialized in building growth systems for brands across multiple industries and markets.

We work with healthcare providers, e-commerce brands, tourism companies, real estate developers, and consumer brands across Egypt, Saudi Arabia, UAE, and Qatar.

Our track record:

14 clients, average 2-3x growth within 30-90 days.

We don't manage social media. **We build growth systems.**

OUR FOUNDATION

Tested & Experienced:

Team has worked across dozens of campaigns, tested hundreds of strategies, and proven what works in MENA markets.

Algorithm-First:

We stay updated with Meta, Google, and platform changes. We understand the algorithms, not just the dashboards

Clear Targets:

Before we start, we agree on what success looks like. Strategy isn't vague. Numbers are.

Selective Partnership:

We don't work with every client. We partner with brands committed to growth who can invest time, resources, and input into their strategy.

Requirements-First:

We specify what we need from you (footage, materials, resources) before we start. If requirements aren't met in month one, we can't deliver results

WHAT WE DELIVER

We provide **end-to-end** marketing strategy and execution across three core areas:

1

Content Strategy & Production

We don't create random posts.

We build content systems designed to convert.

- **Brand Strategy:** Define positioning, tone of voice, and content pillars.
- **Content Calendar:** 30-90 day plans with specific content mapped to business goals.
- **Content Creation:** Copywriting, video concepts, carousel design briefs, product photography direction.
- **Community Management:** Daily engagement, response strategy, community building.

2

Paid Media & Performance Marketing

We run ads to reach goals, not to spend budgets.

- **Campaign Strategy:** Audience segmentation, funnel design, targeting architecture.
- **Ad Management:** Facebook, Instagram, Google Ads, TikTok — daily optimization and testing.
- **Conversion Optimization:** Landing pages, checkout flows, lead capture systems.
- **Analytics & Reporting:** Dashboard setup, weekly performance reviews, action recommendations.

3

Growth Systems

We build systems that compound.

Not one-off campaigns.

- **Email & Retention:** Customer journey automation, retention funnels, repeat purchase optimization.
- **Personal Brand Building:** For founders and practitioners (doctors, coaches, consultants).
- **Website & Technical:** Copy optimization, UX recommendations, conversion rate improvements.

OUR WORK

14 CASE STUDIES

Real brands. Real results. All within 30-90 days

Industry

Challenge

What We Did

Result

**Healthcare
Dental
Clinic Chain**

Heavy reliance on paid ads. Bookings **stopped** when ad spend was paused.
